Date

5 December 2025

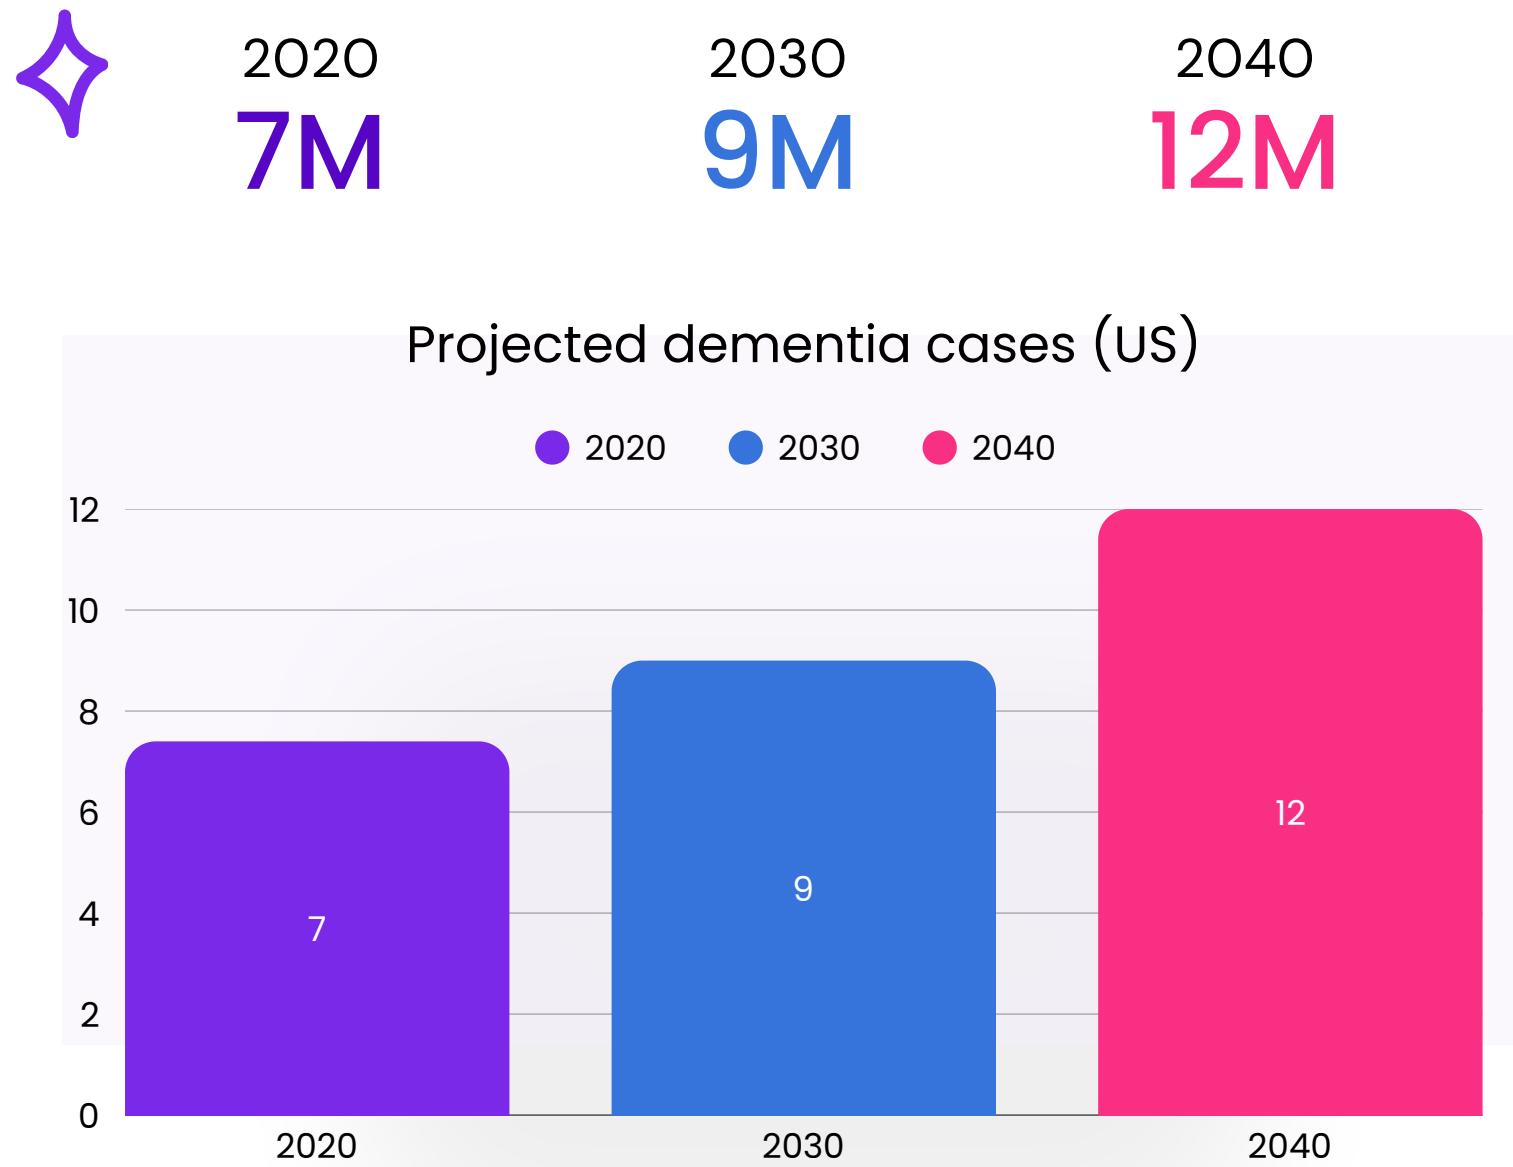

+7 Million Americans

Aged 65+ were living with dementia in

2020

Dementia is a looming public-health crisis

- WHO recognises dementia as a public health priority
- Rates double every 5 years after 65

*Half of those affected never receive a clinical diagnosis.

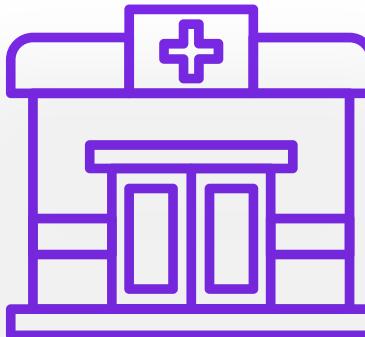

Wayloom.AI

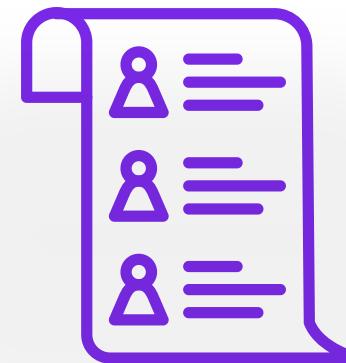

Testing Hasn't Evolved - But Dementia Has

Paper tests from the 1980s

Long clinic visits

Months-long waitlists

Wayloom.AI

Meet Wayloom

Fast & Accessible

Five-minute cognitive assessments on any smartphone

AI-Driven Insights

Analyzes speech & memory to detect subtle changes

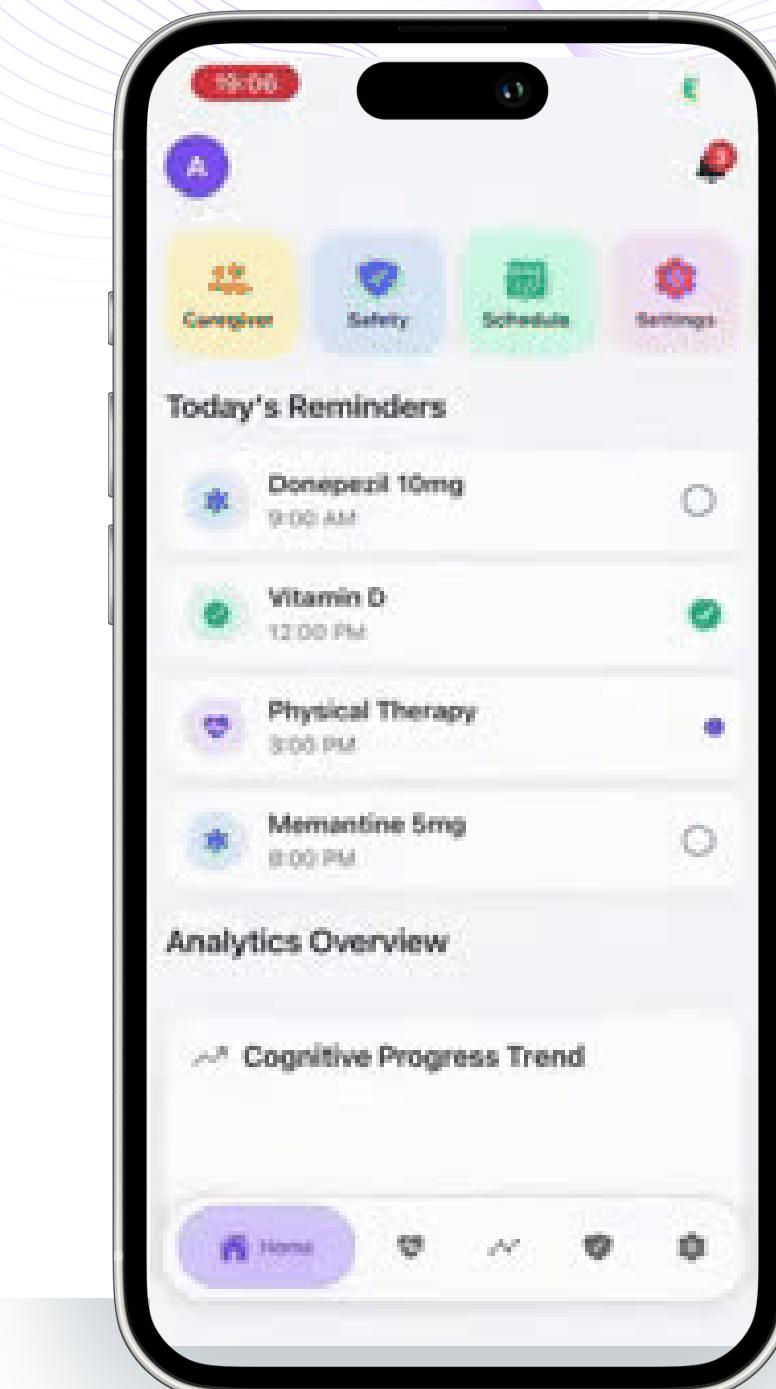

Personalized & Adaptive

Tests adapt to language, culture & education level

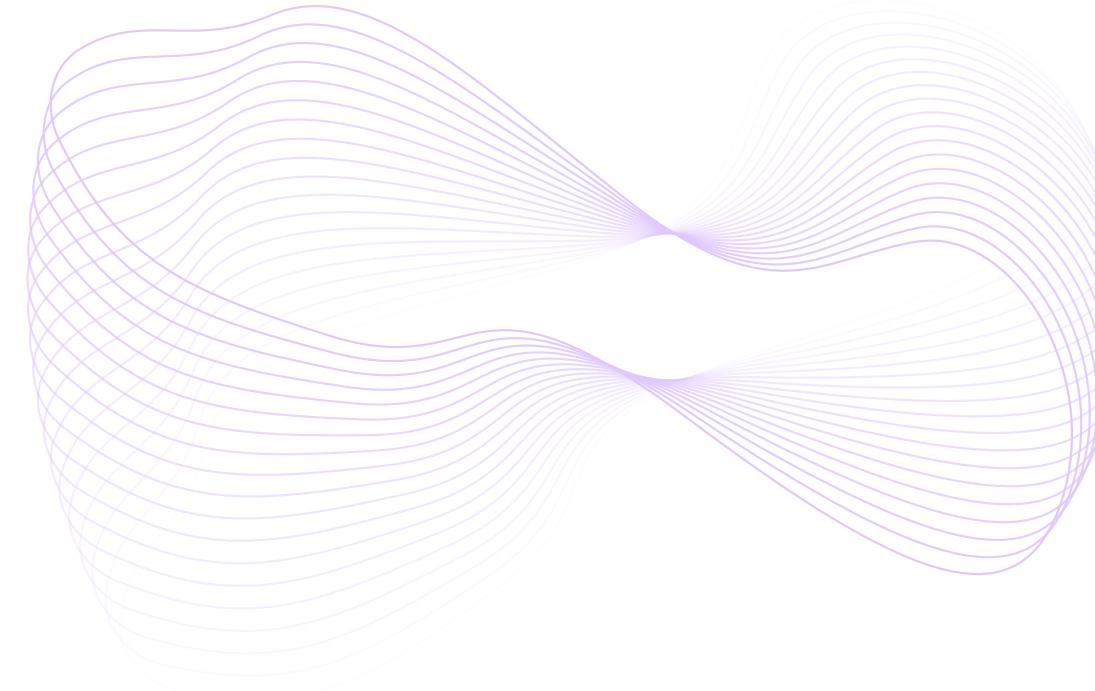

Shared Care View

Unified clinician + caregiver dashboards for at-home and clinical continuity

How it works

- 01 **Take a Test** → 02 **AI Analysis** → 03 **Insights & Trends** → 04 **Continuous Monitoring**
- Open the app and perform a test guided by our chatbot
- Speech & memory metrics evaluated in seconds
- Get scores, trends & proactive recommendations
- Tracks changes & suggests check-ins.

An Exploding Market for Cognitive Health

2024

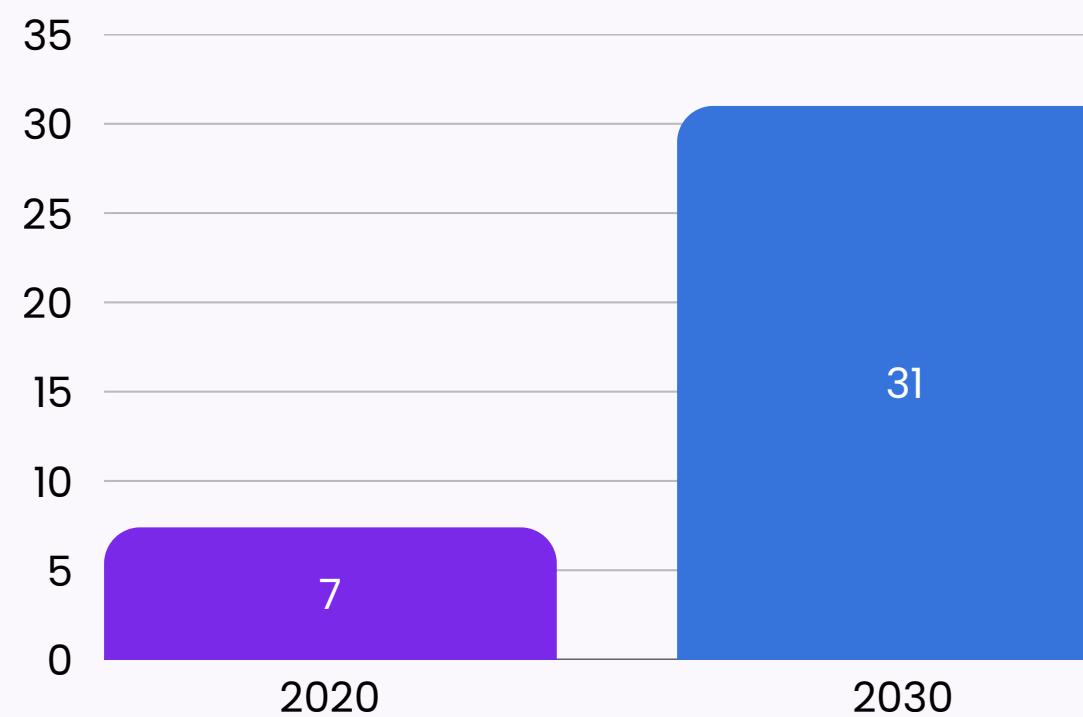

\$7.4M

2030

\$31M

Projected dementia cases (US)

● 2020 ● 2030

Rapid Growth

Projected CAGR >25% over the next 6 years

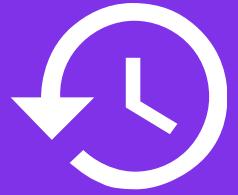

Large TAM

\$31B global market by 2030

Underserved US

\$2B US market with few accessible tools

Why Now?

Accelerating Dementia

Rates double every five years after 65; millions remain undiagnosed.

Clinical Overload

Clinicians are overwhelmed; caregivers need clarity and guidance.

Policy & Tech Momentum

CMS reimbursement and AI breakthroughs make adaptive testing possible.

Business Model

Individuals (B2C)

\$4.99/mo • \$49/yr • \$14.99 report

Free baseline assessment

Caregivers

\$9.99/mo (3 profiles) • \$99/yr

+\$3/mo each additional

Includes premium insights

Researchers

Free academic access

Optional support packages

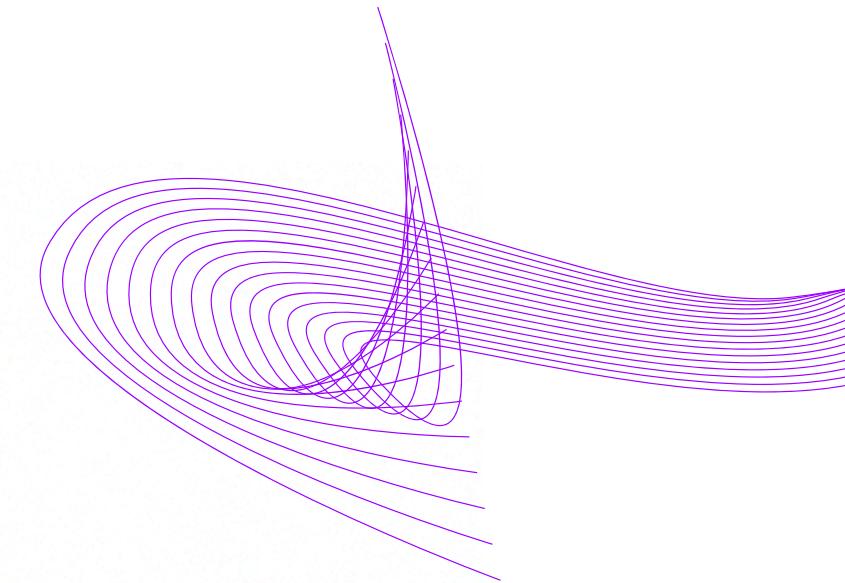

Clinics (B2B)

Professional: \$149/clinician/mo

Clinic Plus: \$399/site/mo

+\$2 per extra assessment

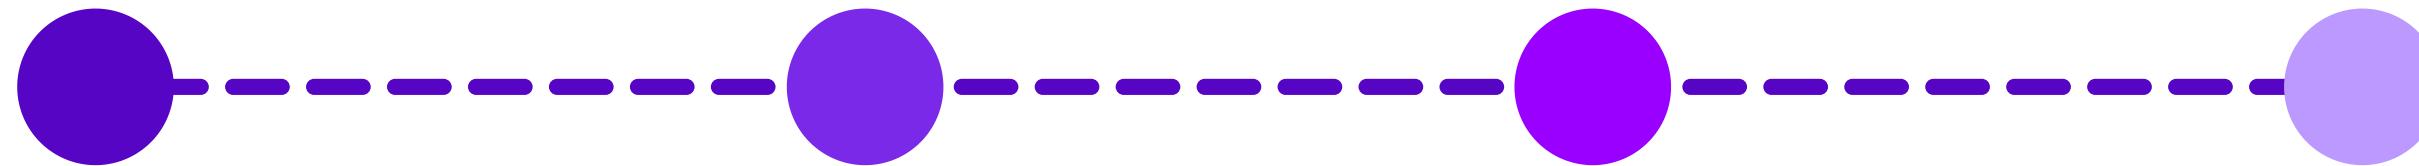

Competitive Landscape

Conversational Delivery	✓	✗	✗	✗	✗
Longitudinal Monitoring	✓	✓	✓	✗	✓
Caregiver Integration	✓	✗	✗	✗	✗
At-Home Usability	✓	✗	✗	✗	✗

Traction

Despite being early stage, we have:

Prototype Built

**Early Usability
Testing**

**Dataset Access
Secured**

**Credibility & Early
Demand**

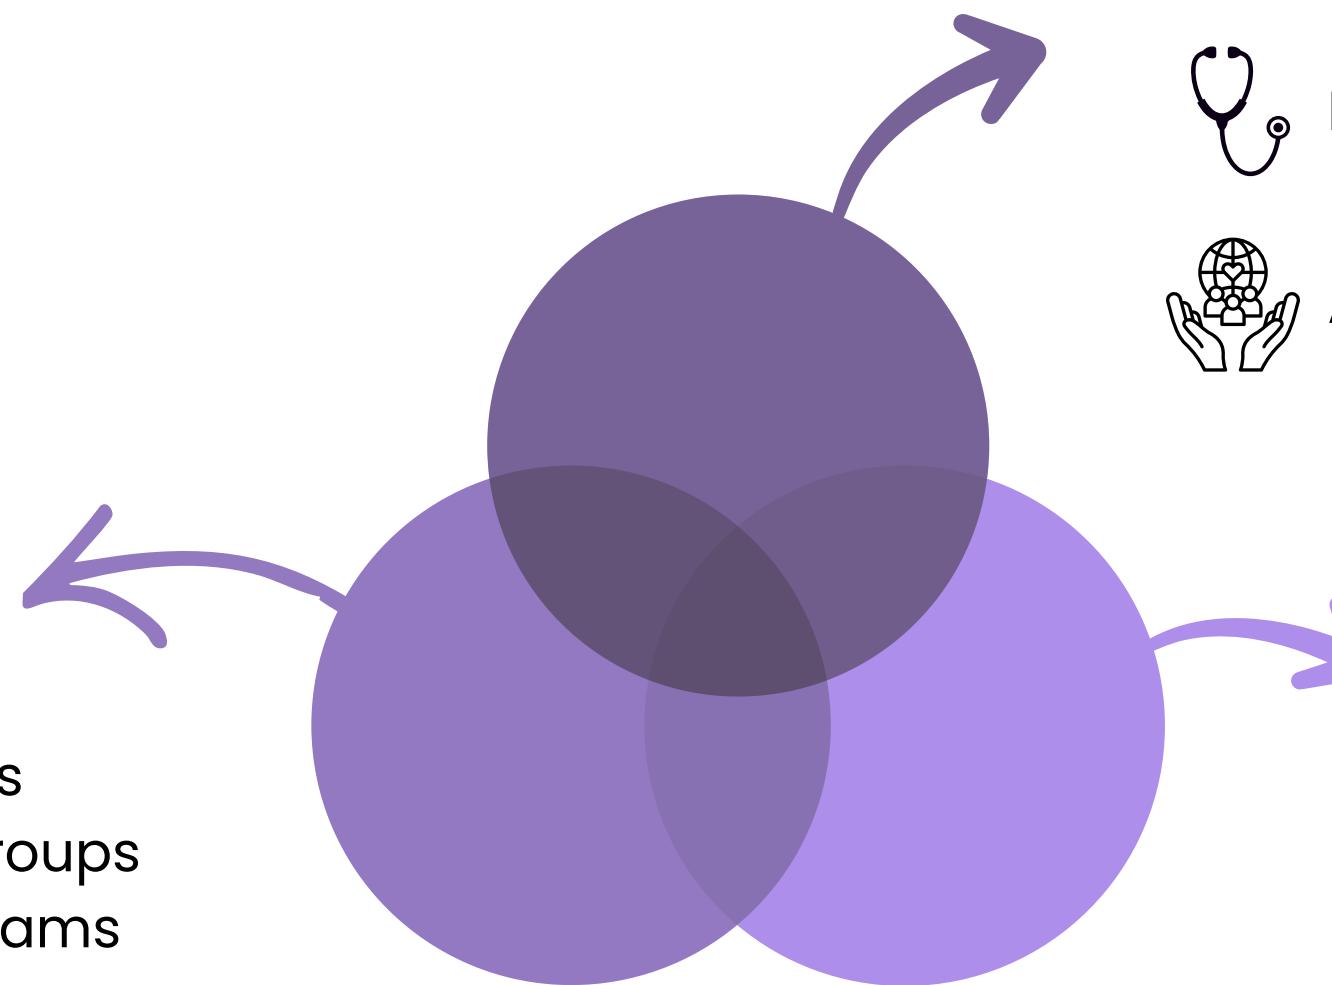

Go-to-Market Strategy

Who We Reach:

Trusted Aging Networks

- Seniors & caregivers
- AARP-aligned channels
- Caregiver Facebook groups
- Local aging-well programs

Clinical Core

Memory clinics

Neurology groups

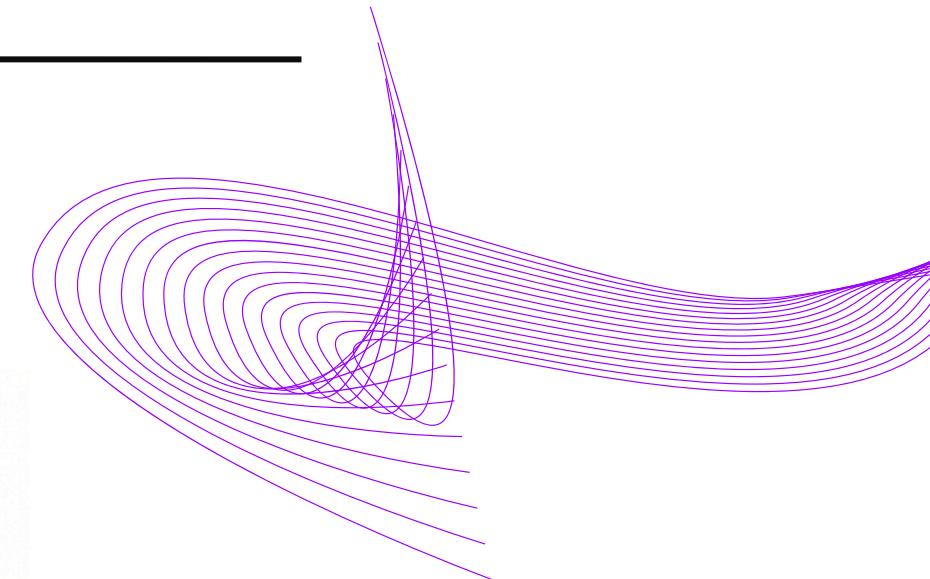

Aging-care orgs

Scaled Growth Layer

- Physician referrals
- Medicare/MA programs

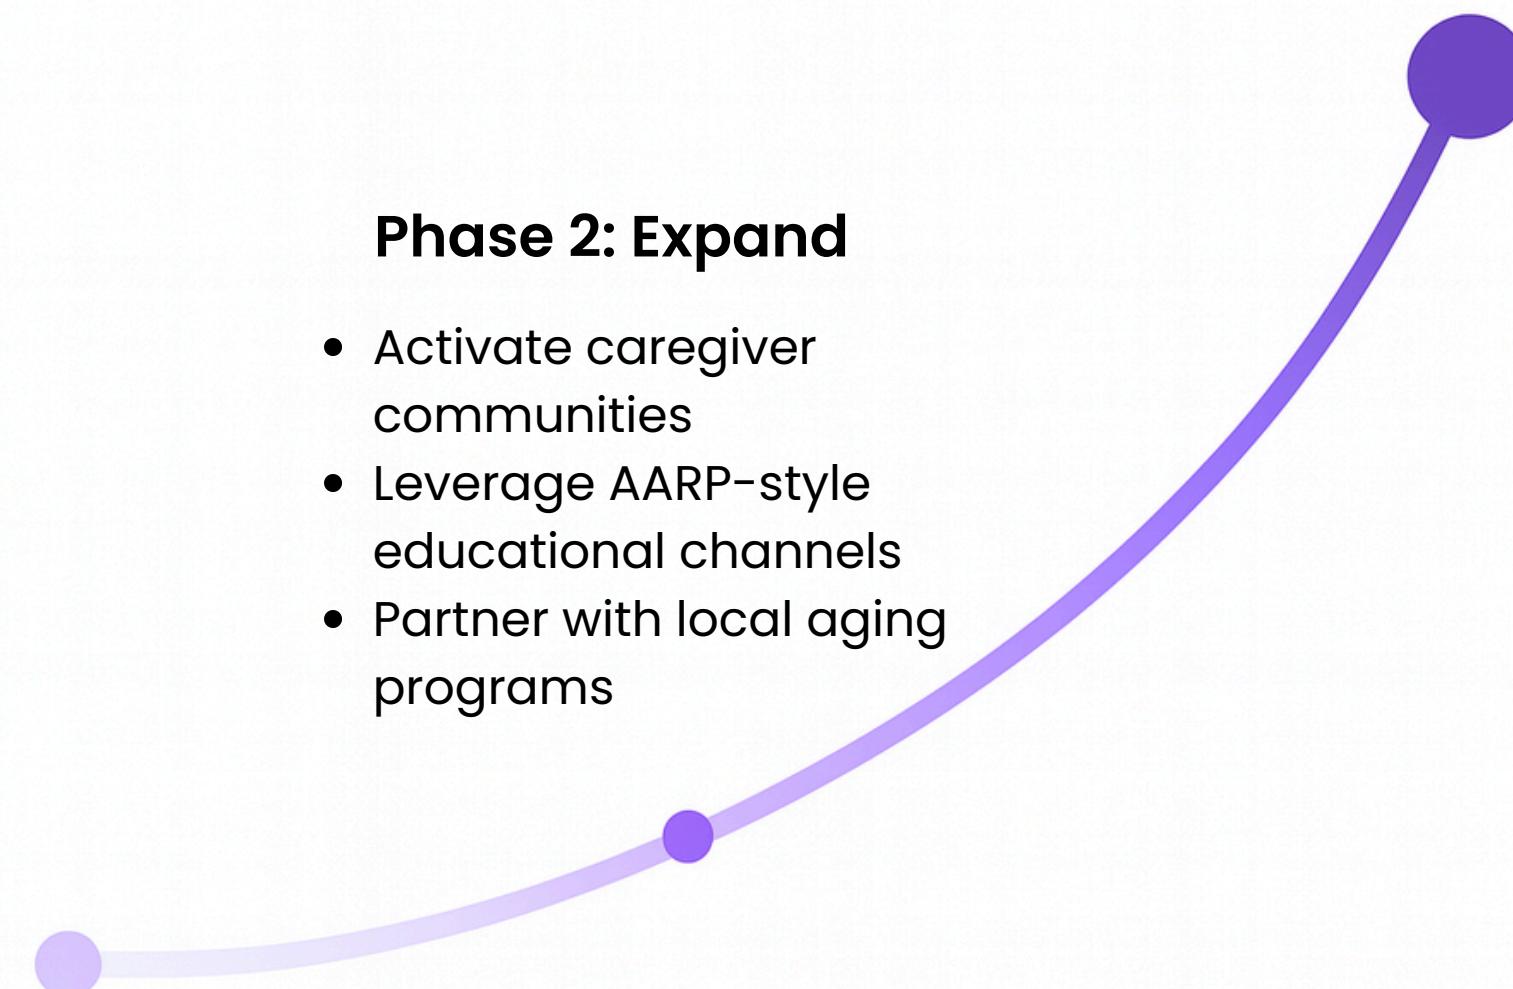

Go-to-Market Strategy

How We Scale:

Phase 1: Validate

- Partner with clinical groups
- Collect outcome + accuracy data
- Establish credibility & trust

Phase 2: Expand

- Activate caregiver communities
- Leverage AARP-style educational channels
- Partner with local aging programs

Phase 3: Scale

- Physician referrals as a major growth engine
- Add MA/Medicare reimbursement pathways
- Optimize **CAC < \$20**
- Maintain **65%+** retention through personalized monitoring

Trust → Reach → Scalable Growth

Wayloom.AI

A world where monitoring cognitive health

is as normal as tracking steps on a smartwatch.

**Early detection gives families
time
the one resource dementia steals
first.**
